The Dereeler ABW 1600/2000 works perfect as independent feeding system for ramatech processing machines (Speedy 35 or RS 35) and could be integrated into a production line with cable coilers or cable stackers.

- ▶ Cable spool diameter up to 1600 mm
- ▶ Cable spool width up to 1150 mm
- ▶ Cable spool weight up to 2000 kg
- ▶ Sensor guided speed control system
- ▶ Emergency stop output signal for the connected cable processing machine
- ▶ Hand switch for easy and comfortable use: wind and rewind of cable reels
- ▶ Pneum. Swinging Arm (cable up to 35 mm)
- ▶ Weight Dereeler approx. 1250 kg
- ▶ Power supply: 3 x 400 VAC + N / 32 AT

With a steel shaft and two centering cones the reel is brought into the dereeler.
