We have been producing precision metal parts since 1976.

Our core business beats with fast presses up to 250 tons.

Consolidated know-how, advanced design and management systems, organization certified, allow us to guarantee a high level of customer-oriented service.

- ⇒ **BLANKING AND FOLDING**
- ⇒ **DEEP DRAWING**
- ⇒ **ELECTRIC TERMINALS**
- ⇒ **CUSTOM PARTS**

Focus area:

- automotive
- consumer and high-tech
- electric and thermal engines
- metal part co-molding
- household and electromechanical
- lighting, aesthetic, fashion
- medical
- prototyping
- industrial property confidentiality
- high level references

Quality over time:

- Iso 9001:2015 certification
- continuous updating
- PDCA, capability
- optical and 3D metrology
- electronic instrumentation
- derating and specific certification

Company profile:

- made in Italy, exports all over the world
- company rating "AAA"
- growing turnover and investments
- Holding: "GSV" plating + "Spring '85" fashion components
- 160 employees in the group

Processed materials:

- carbon and stainless steels
- alloys of copper, brass, bronze, nickel silver
- aluminum alloys
- pretreated
- special
- RoHS, REACH, Conflict Minerals

In our new catalogue:

- crimp terminals, females, males
UL certified
- safety terminals, anti-slipping
- soft insertion terminals
- eyelet terminals, forks
- terminals for special applications
- terminals for multiple connections
- electrical junctions
- technical products
- hooks
- eyelets, capsules, bushes
- fashion components

Product development process:

- co-design
- 3D design
- mold construction, internal tooling
- molding with the best technology
- electroplating, coatings, heat treatments
- cleaning, washing
- packaging, eco-friendly optional
- blistering

Sales network, agents and distributors:

- worldwide
